Statement of Intent

With a lifelong interest in web development and programming, I endeavored in my prior industry to create optimizations where possible to make processes like iterating, estimating, and content creation more time-efficient and cost-effective. I am now pursuing a full-time career as a full stack web developer, having leveraged the time spent in an extracurricular capacity and formalized my training.

Education

Columbia University Full Stack Development Certificate, 2020-2021
Academic Average: A

B. of Science in Architecture (Hons), Arizona State University, 2011
Summa Cum Laude GPA 3.9, Barrett Honors College Thesis
President of the American Institute of Architecture Students
Faculty Letter of Commendation, 2011

Skills

Technologies	AEC	
HTML	*Revit / Dynamo*	*Construction Documentation*
CSS/Frameworks	*AutoCAD 2D/3D*	*Project Estimating*
Javascript	*Rhino / Grasshopper*	*AIA Billing & Accounting*
jQuery	*Digital Modeling*	
Node.js	*Digital Rendering*	
API's	*Adobe Suite*	
Python (Novice)	*(PSD, ILL, IND)*	

Project History (See Github)

Echo Chamber	Music Generator	Collaborative, responsible for API implementation and majority of JS script, design features, & mgmt.
Weather App	Weather Dashboard	Self, HTML/CSS, JS, jQuery, API's, Bootstrap
Planner App	Local Storage Planner	Self, HTML/CSS, JS, jQuery, local storage, Bootstrap
Code Quiz	Quiz Game	Self, HTML/CSS, JS
Password Generator	With User Input	Self, HTML/CSS, JS
Responsive Portfolio	(See Portfolio Site)	Self, HTML/CSS, JS, jQuery

Work History

Designer, HLW (NY, NY)   JULY 2017 - CURRENT

Lead architectural designer on many notable client-oriented projects, I implemented standards for advanced Revit technical drawings that are still in use today and included in the new employee handbook. These standards included a toolkit of small scripts for optimizing universal brand aesthetic of the practice.

Project Mgr. & Head of Accounting, Desciencelab (BK, NY)   AUG 2013 - JUN 2017

As Project Manager in a high-end residential & commercial design/build practice, I was responsible for coordinating trades, construction administration, as well as drawing, documentation, and direction for our in-house build team.

I ultimately handled executive accounting toward the end of my tenure (bidding, estimating) and developed a complex bidding Excel form that would run calculations on material & labor costs for new work. My promotion to the position actively allowed the company to significantly increase profits and monthly cash flow.

Architectural Designer, Various (CO, AZ, OH, CHN)   JUL 2008 - MAY 2013
